We're making
THE CASE
FOR BETTER HIGH-SPEED TILLAGE.
*Introducing
the* **VELOCITY**

Great Plains
"Harvest Starts Here."

©GREAT PLAINS MFG, INC. 2291G-GPM

**The Velocity® is built
for speed, durability,
and exceptional
residue burial.**

With operating speeds of 7-9 mph, this hybrid tillage solution runs faster than conventional disk harrows. Its low-concavity SpeedBlades™ turn 5% faster than smooth blades to power through heavy residue at higher speeds without ridging.

32730 E. Highway 156
Kalvesta, KS 67835

**X-CELERATE
SURFACTANT
Now Taking Early
Orders w/ Discounts!**

X-CELERATE'S ability to deliver RoundUp® or other herbicides beyond the leaf, into the stalk and directly into the roots is the "mystery" behind its effectiveness. Many of our customers have seen impressive kill rates literally hours after treatment. When you consider the cost of herbicides, diesel fuel, wear on equipment and time in the field the value of X-CELERATE is incredible. Now add the benefit of eliminating nutrient robbing "superweeds" and we now have a fair fight!

Field Cultivator

23' to 60' Models
8000 Series

HARVEST STARTS HERE

8000 Series Field Cultivator

Several changes and enhancements were made to the 8000 Series Field Cultivator from Great Plains making a good unit even better!

- **SHANK IMPROVEMENT** - Improved shank spacing around tires and throughout the machine with no shanks closer than 28" on entire implement.
- **LOW-PROFILE HITCH** - New low-profile hitch with heavy-duty ball joint attachment and convenient hose storage area.
- **MAX-MIX™** - The Max-Mix shank pattern increases chemical incorporation, reduces windrowing, and helps eliminate banding.

More power. More comfort. Better hay.
ONLY FROM HESSTON BY MASSEY FERGUSON

HESSTON
 by MASSEY FERGUSON

Introducing the Hesston by Massey Ferguson® WR9900 Series of self-propelled windrowers. Ranging from 160–265 engine horsepower, no other windrower helps you produce quality hay faster, more efficiently or more comfortably. The WR9900 Series offers more hydraulic capacity, and when paired with our newly designed headers, you get unmatched power — up to 20% more with our 16-ft. disc header. Best of all, in the end, you don't just get hay. You get Hesston® hay. HESSTON.COM

UNIFORM, FLUFFY WINDROWS

NEEDS TO GO! SAVE BIG!

GA SINGLE-ROTOR ROTARY RAKES

- Masterdrive gearbox for increased reliability and toughness during intense use
- Double curved tine arms provide clean raking and increased forward speed
- Long, flexible tines touch the crop just once, neatly lifting and depositing it into the windrow
- Superior raking quality creates fluffy, fast drying windrows without roping

10'6" – 14'9" raking widths

INVEST IN QUALITY®

KuhnNorthAmerica.com   

HIT THE RESET BUTTON ON YOUR SOIL PROFILE

IT'S AS EASY AS 1-2-3

It's time to put a more comprehensive strategy to work to achieve a uniform, unrestricted soil profile for maximum root development and increased yield potential. Backed by agronomic research, this vertical soil management system from Great Plains — the **VT1500 Sub-Soiler** to reset your soil profile, **Max-Chisel™** for residue incorporation, and **VT1100 Turbo-Max®** for a smooth, vertically-tilled finish — is specifically designed to increase water infiltration, fight compaction, and establish an ideal seedbed.

1 SUB-SOILER

FALCON™

32' / 36' / 42' STRIPPER HEADER

Proudly made in rural America, the Falcon stripper header by Applequist Manufacturing, Inc. is designed to help you harvest wheat and rice more efficiently.

- Harvest faster and reduce costs
- Extend your working hours—start earlier and finish later
- Save on labor costs
- Pick up downed crops
- Improve the planting environment for future crops

Learn more about the Falcon stripper header and find your nearest dealer at www.applequistmfg.com

TERRAINFLEX

PIVOTING WALKING BEAM

Improve the performance of your 1850, 1860 or 1890 air drill.

The *TerrainFlex* by Applequist Manufacturing, Inc. was created to address issues with 30', 36', 40' and 42' three-section 1850, 1860, and 1890 Air Drills on uneven terrain.

With the *TerrainFlex* Pivoting Walking Beam installed, the gauge wheels allow the wing frames to better follow the contours of the field. When the wheels have more contact with the ground, the results are less downtime due to machine breakdowns and a more consistent seed placement from the openers. An optional weight kit is also available.

BEFORE Factory Rigid Frame

AFTER TerrainFlex Pivoting Walking Beam

Tire Leaves Ground Poor Seed Depth Control Rigidly Mounted to Frame

Rear Wheel Pivots Down Better Seed Depth Control Maintenance-free Pivot Point

 W. HWY 181 TIPTON, KS 67485
 785- 373-6995
 Dave's Cell 785-822-7171

SEE the Difference

See the difference this harvest season with the Brent V-Series corner-auger grain cart. Designed to be clearly visible from the side window of your tractor, the V-Series auger is further forward than any other cart on the market and features a vertical downspout for increased control when unloading. Invest in the best. Take the next step in your harvest journey with Brent V-Series grain carts. For more information, see your nearest Brent dealer or visit brentequip.com.

Brent V-Series corner-auger grain carts are most advanced on the market.

- 750 to 1,500-bushel capacities
- Unload up to 650 bushels per minute
- Four-way downspout for precise grain placement
- Steep tank slopes and recessed auger sump for complete cleanout
- Choose 42" wide Equalizer or 36" wide tracks or high-flotation single tires depending on model

UNVERFERTH MANUFACTURING CO., INC. | P.O. Box 357 • Kalida, OH 45853 • unverferth.com

THE BEST KEEPS GETTING BETTER

THE
GREAT PLAINS BD7600

How do you make the best even better?

Add the ability to change fertilizer rates and seeding rates individually with a touch of a button – or automatically with variable-rate prescription maps. Our DrillCommand® software, coupled with hydraulic drive on split-box configurations, gives producers capabilities never before available on a box drill.

Combine this practical technology with the BD7600's long list of industry-leading features, and you have the most productive, versatile, and operator-friendly box drill ever produced!

With over 40 years of hard work, commitment to agronomic research, and listening to farmers' feedback, Great Plains has developed innovative equipment to propel your operation into greatness, and transform the way you farm.

VARIABLE INTENSITY TILLAGE

TILLAGE ON
YOUR TERMS

TERRA-MAX

The Great Plains Terra-Max is a highly versatile hybrid tillage tool that offers variable intensity tillage for both fall and spring field conditions. This soil management solution is built to create a seed-friendly finish while leveling the soil, removing ruts, sizing residue, and managing stubborn weeds – all with one tool. The new TurboSpeed™ Blade optimizes soil penetration and breakout at faster speeds, producing remarkable tillage results in less time. Tillage is now on your terms with Terra-Max.

Set, monitor, and adjust
from the comfort of
your tractor cab.
